

I-120

The second generation I-120 impact crusher has been designed with improved material flow and enhanced productivity in quarrying, mining, recycling and construction demolition applications. Incorporating the proven Terex® CR038 impact chamber with direct drive and advanced electronic control system the machine provides operators with high material reduction ratios and produces a consistent product shape. For operators in recycling and demolition applications the options of an underpan feeder and autoadjust on the chamber secondary apron are also available for the machine.

KEY FEATURES

- Fully hydraulic apron setting assist provides convenient and efficient adjustment of the chamber aprons
- Heavy duty vibrating feeder (VGF) with integrated prescreen removes dirt fines and sizes bypass material for reprocessing.
- Curved corners on the feeder wear plate to minimize the chances of material building up in the corners when running in sticky material
- For efficient and safer onsite set up and tear down processes the hopper is hydraulically folded and locked from ground level.

TRANSPORT & WORKING

WEIGHT

37,000KG (81,571LBS)
(PRE-SCREEN, HOPPER EXTENSIONS, BY-PASS CONVEYOR & TWIN POLE MAGNET
